

## **A&R Training Services**

### **Millennium Walk**

In May 2004 learners on the e2e programme at A&R Training Services organised a sponsored walk to raise money for charity. The learners chose to support the Barnado's charity and were fully involved in organising the event - they helped staff to plan the route and make decisions about appropriate dress and footwear. The learners gained sponsorship from friends and family and raised £150 for the charity by completing the 7 1/2 mile Millennium walk. The learners really enjoyed the day – they gained a lot of personal satisfaction from completing the walk and felt proud to have raised money to help children to have a better future. In the sweltering summer sunshine the learners all got on well and worked as teams to read the map and follow instructions throughout the day. They also had fun in the countryside - walking across open fields, climbing styles and coming face to face with cows and sheep! A good day was had by all!
